By signing and dating below, customer accepts this Incentive offer and agrees to the Utility Terms and Conditions available from your Utility. Pursuant to a Commission order, customers also agree that the utility alone may capture all kW and kWh savings and any ISO-NE capacity payments resulting from this energy efficiency project. This agreement is contingent upon continued approval and authorization by the Commission to recover said amounts from the System Benefits Charge. The Incentive, in conjunction with all other sources of funding, cannot exceed the total project cost.

Instructions for completing the NE&C EC MOTOR Incentive Worksheet

General Note:

1. The Motor Incentive application is for Electronically Commutated (EC) Motors only.
2. The Incentive, in conjunction with all other sources of funding, cannot exceed the total project cost.

Eligibility Requirements:

1. EC Motors on new fan powered terminal boxes, refrigeration fan coils or HVAC Supply Fans on small unitary equipment are eligible for this Incentive. Other equipment and applications may be eligible under the NE&C Custom Program.
2. This program covers EC Motors which are efficient fractional HP motors.
3. Motor must operate at least 2000 hours per year to be eligible for Incentives.
4. The Incentive offer is not valid unless signed and dated by the Utility Representative. The Customer accepts the Utilities Incentive offer and agrees to the Terms and Conditions of the Utility by signing in the pre-approval offer block.

Pre-Installation:

1. Review eligibility requirements.
2. Review specifications for the proposed equipment to confirm it meets the minimum efficiency requirements.

Post Installation:

Utility Representative must verify that:

1. The motor has been installed and operable or that the customer has purchased the motor for stock.

2. The motor matches the information on the Incentive application. If any motor has changed from what was approved for the initial Incentive offer, the substituted equipment specifications must be submitted and reviewed by the utility to verify compliance with technical requirements and approved by the Utility before an Incentive is considered.

3. Proof of Purchase has been submitted. This includes invoice(s) indicating the size, type, manufacturer, model or part number, purchase date, and vendor of the efficient equipment. Other forms of payment such as AIA Certificates of Payment may also be acceptable.
