

YOUR CO-OP, YOUR BUSINESS LET'S WORK TOGETHER!

August 2023

A HEAT PUMP IN EVERY ROOM!

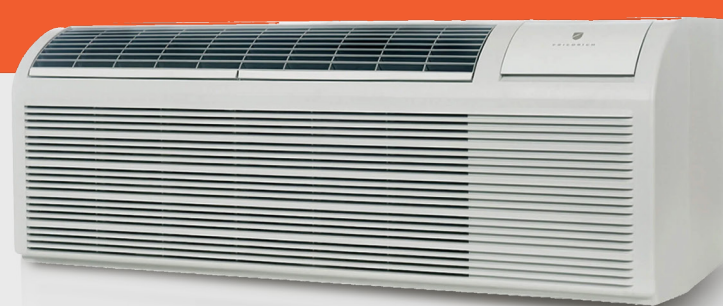

Packaged Terminal Heat Pumps combine comfort and BIG energy savings

Packaged Terminal Air Conditioners, or PTACs, are combination air conditioner/heater units that fit through the wall. They are often used in hotel rooms, condos, and offices, using electricity to heat and cool. But the next generation of models uses heat pump technology to achieve a level of energy efficiency that can't be matched by standard PTACs.

Packaged Terminal Heat Pumps (PTHPs) provide the same convenience of ductless, all-in-one heating and cooling for commercial spaces. But PTHPs use about 1/3 less electricity than standard PTAC units. Best of all, it's easy to replace your old PTACs with new PTHPs because the service opening is the same size.

PTHPs provide efficient heating and cooling with the flip of a switch. They are ideal for:

Commercial Lodging • Offices • Condominiums

New for 2023:

\$500

INSTANT REBATE

on Packaged Terminal Heat Pumps at Participating Distributors!

Please note, sales must be made on or after August 1, 2023 to qualify for an incentive.

For available incentives and eligibility, [CLICK HERE](#) or email HVAC-NE@energy-solution.com

INSTANT SAVINGS ON HIGH-EFFICIENCY COMMERCIAL FOODSERVICE EQUIPMENT

Major cooking appliances account for almost 35% of the average restaurant's energy expenditures. High-efficiency equipment can decrease these energy costs by as much as 75%. Investing in high-efficiency commercial food equipment can significantly reduce long-term energy costs and improve production.

INCENTIVES OF UP TO \$3,000 ON QUALIFYING EQUIPMENT ARE AVAILABLE.

NHSaves® utility partners Eversource, Liberty, New Hampshire Electric Cooperative and Unitil offer a point-of-sale rebate for electric and natural gas commercial kitchen equipment through participating distributors. This is a simplified program with no application or paperwork to complete, and you are able to receive an instant rebate on your qualifying high-efficiency equipment.

HOW DO I GET THE REBATE?

1. Find a Participating Dealer
2. For foodservice equipment, please refer to **THIS LIST** to locate participating dealers in your area.
3. Choose Qualified Equipment
4. Provide your sales representative with your active, non-residential natural gas or electric account number.
5. Receive instant rebate on qualified equipment! Your rebate will be automatically applied at the register as a deduction from your invoice after tax. Install the equipment at your facility and enjoy the cost savings of high-efficiency equipment!

INSTANT, ENHANCED REBATES FOR COMMERCIAL LIGHTING

With instant rebates at the distributor, enhanced incentives and no paperwork, it's easier than ever to save on LED lighting fixtures.

NHEC offers a streamlined approach to upgrading your lighting. You receive an instant discount at the point of purchase with participating distributors. Best of all, there's no rebate form to fill out and send. You get your discount right at the store. Just scan the QR code for the list of participating distributors or visit <https://www.nhec.com/commercial>.

TAKE ADVANTAGE OF ENHANCED INCENTIVES NOW FOR AN ADDITIONAL 25% IN REBATES. OFFER ENDS SEPTEMBER 30, 2023*

LED lighting uses less than half the energy of traditional fluorescent lighting and lasts twice as long. Switch to LEDs for your business today and enjoy energy savings, reduced maintenance costs and a lower electric bill!

*Lights must be installed within 30 days of purchase and are subject to inspection verification
